WHEATMEN MATCH REPORT

Under 8s

The week started off well for the Under 8 Wheatmen with a tackle clinic held by the Reds. The team took some valuable lessons from the Reds, learning some vital techniques to help improve their game. We were confident in taking these new-found skills into the Highfields carnival over the weekend.

With a big field the boys started off well against Bears playing expansive rugby and trading tries for the full game. I was very impressed with the effort, chasing the opponents all the way to the try line and not giving up, it was great to see.

The second game against Highfields lacked commitment that we have shown all season and this led to very poor defence, allowing for the Redbacks to score numerous tries.

After a bit of soul searching and practice between games we got ourselves back up and played a great game against the Goondiwindi Emus. We were much improved in our defence and our cleaning out, which gave us opportunities to post some great tries. I would like to thank all the players from the opposing teams who helped us out on the weekend it was greatly appreciated. Looking forward to the last game before the holiday break, which I would like to see us work on our team work. The more we work together the better we will play and the more enjoyment we will get out of it.

Tobin Cherry, Coach
